Lift slide is the superior sliding solution for moving very heavy sashes with ease, providing strong weather-seal, and for manufacturers to meet hurricane test standards. Architects love lift slide for its elegance of function in pocket door, curved panel, and corner applications. Lift slide is ideal for maximizing the view in a home, resort or restaurant, while supporting green building goals for natural ventilation and light.

FFI ▶ **the Lift Slide Leader**

Only FFI has complete hardware systems in stainless steel

FFI's lift slide door hardware innovations – including stainless steel, integrated edge-pulls, half-gears, and taller locks – are contract-manufactured by FFI and available nowhere else.

FFI also has lift slide window hardware, scaled down in size and cost, suitable for 1-3/4" window sashes.

Eighty percent of the Top 20 North American companies that manufacture lift slide doors use FFI stainless steel lift slide.

FFI SST Lift Slide Hardware Quality Assurances

- ✓ 15-year warranty against manufacturing defects for locks & carriages.
- ✓ Locks and carriages cycle-tested for durability to 100,000 cycles.
- ✓ Salt-spray corrosion testing to ASTM B-117 standards for 3,000 hours.
- ✓ In-stock products ship within 24 to 72 hours.
