

Applications

Suitable for bottom hinged windows with less than 5ft (1.5m) width.

Features

- Maximum opening: 10" (250mm)
- Conduit comes with prebent section (50 mm radius). Straight conduit sections are supplied in 2ft (0.6m) sections.
- Minimum space required: 20mm from the vent upper profile
- For vents lower than 500mm, reduce the stroke to 1/3 of the height by adjusting the end stroke spring, located by the control operator

Bravo Series
