

# FFI VentaLoc

lock for side-lites and other tall windows

## Applications

- Side-lites and other tall window sashes.
- In-swing or out-swing casement sashes.
- For sashes in wood, fiberglass, composite, vinyl/pvc, or aluminum.

## Benefits

- Corrosion-resistance from stainless steel lock face, drive-rail, strikes, and screw supports.
- Security protection, and warp-prevention, from multiple locking points.
- Stainless steel components are Made-in-USA.
- Easier installation, better appearance, and tighter seal with locking tongue points (compared to shoot-bolts).
- Tested to 10,000 cycles.
- 10-year FFI warranty.

## Features

- 90 degree handle operation.
- Backsets: 25, 30, 35, 40, 45, or 50 mm.
- For standard sash heights 6'8" (80") and 8' (96").
- VentaLoc gears can be cropped shorter up to 5-1/2" at the bottom and 6" at the top.
- Tongue-type lock points: 80" lock has 3 lock points, 96" lock has 4 lock points.
- Handle height 36 inches (standard).
- Faceplate: Stainless steel 304 grade, Eurogroove, 16 mm (5/8") wide; 20 mm (13/16") wide available with minimum order quantity, please inquire.
- Strikes: Stainless steel 304 grade, adjustable.
- Compatible with DK window handles with 7 mm square spindle.
- Screws: Use #8 screw of length & material to suit your sash.
