FFI SIGNATURE LIFT SLIDE DOOR GEARS

- Lift Slide Door Gears for sliding door panels
- For all sash types including wood, clad, steel, aluminum, composite and PVC.

Material Choice	430 or 304 grade Stainless Steel with SST/Brass lock parts
Lock Face	PVDF (Kynar)/Koflux coated anodized aluminum, Black or Silver
Weight Capacity	880 lbs. per panel; Up to 1,320 lbs. with HD assist & tandem rollers (ask for details)
Backsets	37.5mm (1½") or 27.5mm (1¼")
Compatibility	Connects to all FFI SST carriages Fits all lift slide handles with 10mm spindle FFI edge pulls
Locking Points	Up to 4 locking points at jamb (3 more lock points with extensions)
Panel Height	Gear for up to 8'8" panels, or up to 14' with extensions
Gear Height	8'6" (2585.5mm)
Handle Height	39⅜" (1000.5mm) to 39⅞" (1010.5mm) depending on track (ask for details)
Panel Thickness	Minimum 56mm (2¼") for wood, other materials may vary
Testing	ASTM B-117 Salt Spray tested to 3,000 hours corrosion resistance. AAMA 906-21 specification for Sliding Door and Lift Slide Roller Assemblies. Certification tested by others, with high performance for DPI and Hurricane.
Warranty	15 year warranty

FFI Signature Lift Slide Gears

Available in 10-packs (as below) or single gears (ask for details)

Item #	Backset	Material	Finish	Quantity
LAD255SH54-10	37.5mm	430 SST	Black	10-pack
LAD255SH55-10	37.5mm	430 SST	Silver	10-pack

14ft Max Door Height

Secure bolt-in rod

FFI GEAR EXTENSIONS WITH LOCK POINT

- Cuttable gear extensions for any panel, to add locking points and height to 14 feet
- Features threaded rod for more reliability than set-screw style extensions by other brands

Material	Drive rod: 304 grade Stainless Steel Face: Aluminum with heavy-duty PVDF (Kynar) finish
Length	24" (625mm)
Panel Height	Up to 3 extensions can be used. Maximum door height is 14ft.
Locking Point	Adds 1 locking point
Compatibility	All FFI lift slide gears except for half gears

Lift Slide Gear Extensions

Includes M6x18mm screw and connection bracket

Item #	Material	Finish
LDG0625000	304 SST	Black
LDG0625001	304 SST	Silver

FFI COVER RAIL EXTENSIONS

A blank cover plate, to add height up to 14 feet and a neat appearance, without adding locking points.

Material	Aluminum face with heavy duty PVDF (Kynar) finish
Length	24" (625mm), cuttable
Panel Height	Up to 3 extensions can be used. Maximum door height is 14ft.
Compatibility	All FFI lift slide gears (door or window)

Cover Rail Extensions

Includes M6x18mm screw and connection bracket

Item #	Material	Finish
LSASH00008	Aluminum	Black
LSASH00009	Aluminum	Silver

Included with cover rail extension - Available separately

Item #	Description
LS00000197	Connection bracket *Required when connecting cut extensions

Connection Bracket

FFI SIGNATURE LIFT SLIDE CARRIAGES

- High performance rollers with adjustable rear carriage
- For all sash types including wood, clad, steel, aluminum, composite and PVC

Material Choice	430 grade SST with chrome plated steel wheel bearings or Premium 304 grade SST with 630 series wheel bearings
Features	PVDF (Kynar)/Koflux-coated zamak body Low friction Delrin wheels Nylon Brushes for self-cleaning debris from track
Weight Capacity	Up to 660 lbs (300kg) per panel at 100,000 cycles (ask for details) (Up to 1,320 lbs with Tandem Kit, see next page)
Compatibility	LAD255SH gears, LAD112SH half gears or LAD170SH window gears
Panel Thickness	Minimum 56mm (2¼") for wood, other materials may vary
Track	Compatible with 5mm diameter lift slide track
Testing	ASTM B-117 Salt Spray tested to 3,000 hours corrosion resistance. AAMA 906-21 specification for Sliding Door and Lift Slide Roller Assemblies. Certification tested by others, with high performance for DPI and Hurricane.
Warranty	15 year warranty

FFI Signature Carriage Assemblies

Includes front carriage, rear carriage, link rod pins

FFI VENTILATION KEEP (Optional)

Carriage	LAR3000A19 Adjustable Carriage 430 SST Kit
Compatibility	LAR3000A20 Adjustable Carriage 304 SST Kit LAR3000A16 Adjustable Carriage 430 Assembly LAR3000A11 Adjustable Carriage 304 Assembly
Track	Compatible with 5mm diameter lift slide track
Applications	Holds lift slide panels in place for ventilation Use 2 at the center meeting point for symmetrical bi-parting panels

Holds lift slide panel in place for natural ventilation

Item #	Material	Finish
LSVK.00.630	304 SST	Mill
LSVK.00.631	304 SST	Black

Low Profile Option

Brushes for self-cleaning
debris from track.

The height-adjustable rear carriage
adjusts the sliding sash ±3mm, to quickly
and easily align sash to jamb.

Carriage shown with
LAD255SH door gear
with 27.5mm backset.

FFI ULTRAVUE LIFT SLIDE DOOR SYSTEM

- A Lift Slide solution for ultra slim profiles with maximum glass view
- For all sash types including wood, combination, steel, aluminum, composite and PVC
- Same quality, materials and warranty as FFI Signature Series

Advantages	Cleverly scaled down; bottom rail can be 10mm shorter than usual lift slide carriages
Material Choice	430 grade SST with chrome-plated steel wheel bearings 304 grade SST with 440 series wheel bearings PVDF (Kynar)/Koflux-coated zamak body with low friction Delrin wheels Nylon Brushes for self-cleaning debris from track
Weight Capacity	Up to 550 lbs (250kg) per panel at 50,000 cycles (ask for details) (up to 990 lbs (450 kg) with Tandem Kit, see below)
Compatibility	All FFI Lift Slide Door and Window gears
Tandem Option	Tandem 200V Roller Kit LAR200T003 or LAR200T004
Panel Thickness	56mm (2¼") minimum
Track	Compatible with 5mm diameter lift slide track
Testing	ASTM B-117 Salt Spray tested to 3,000 hours corrosion resistance. AAMA 906-21 specification for Sliding Door and Lift Slide Roller Assemblies.
Warranty	15 year warranty

FFI UltraVue Carriage Assembly

- Compatible with all FFI Lift Slide Door & Window Gears.
- Assemblies include carriages, 2 link rod pins, 4 screws 4.2x38mm (#10 x 1.5")

Item #	Description
LAR2000A14	304 SST UltraVue Front & Rear carriages
LAR2000A11	430 SST UltraVue Front & Rear carriages

FFI UltraVue Tandem Roller Kit - For panels 661-990 lbs

- Use with UltraVue Carriage Assembly and 255SH or 112SH door gears
- Ask for details on weight capacity and cycle testing
- Kits include carriages, 2 link rod pins, 2 40mm link rod pieces, 4 screws 4.2x38mm (#10 x 1.5")

Carriage Support Kit

Sold in kit of 3 pieces

Item #	Description
LARSP00000	Lift Slide Carriage Support Kit, 3pcs

GREENTEQ CLEARLIFT LIFT SLIDE HARDWARE

FFI is the exclusive North American distributor for Greenteq hardware by VBH (GB) Ltd.

Compatible Sashes	All sash types (wood, metal, PVC, etc.)
System Materials	Aluminum, zinc, and steel
Backset	37.5mm
Capacity	Up to 400kg sash weight
Warranty	10 years

- Clearlift core items (carriages, gear, link rail and strikes) are suited for any material and layout; ask FFI for help with accessories
- Sash size maximum 3300mm wide x 2700mm tall (2 gear heights available)
- Sashes up to 300kg with standard carriage set; up to 400kg with added tandem carriage set
- Handle height 995mm
- Carriage features include track-cleaning brushes
- Gear features bottom extension to conceal carriages
- Night ventilation with available night vent strike plate
- Corrosion protection to EN1670 grade 4
- Cycle tested to 25,000 cycles
- Compatible with most any lift slide profile (Deceuninck, Veka, Kommerling, Rehau, etc); Install kit available for Reynaers aluminum profiles with XO and XX layouts

Clearlift Core Elements

Item #	Description
4QLS0001	Carriage set for up to 300kg doors
4QLS0002	Carriage Tandem set for up to 400kg doors (use with 4QLS0001 set)
4QLS0010A	Drive Gear - size 1 SRH 1750-2290mm, Silver, Class II anodized
4QLS0011A	Drive Gear - size 2 SRH 2291-2700mm, Silver, Class II anodized
4QLS0020	Link rail for carriages 1500mm (59") L
4QLS0027	Link rail pin (use 2 per link rail to connect carriages)
4QLS0030	Link rail guide bracket (for any sash type)
4QLS0061	Strike (lock bolt) 9mm, steel
4QLS0062	Strike (lock bolt) for night ventilation 9mm, steel

Clearlift - Accessories for Wood and other panel types

These items and more available to suit most any application; also see A-11 & A-12 and ask FFI for assistance.

Item #	Description
4QLS0060	Positioning jig for strike
4QLS0070	Strike packer 1mm shim for lock bolts
4QLS0071	Strike packer 2mm shim for lock bolts
LLB4000000	Lock bolt 304 SST - For wood sashes
LSBOLT0030	Carriage screw, Silver
LSBOLT2002-6	Carriage screws (6), Silver - for wood sashes
LSBOLT2003-15	Gear screws (15), Silver - for wood sashes

Clearlift gearface extends to bottom to conceal carriage

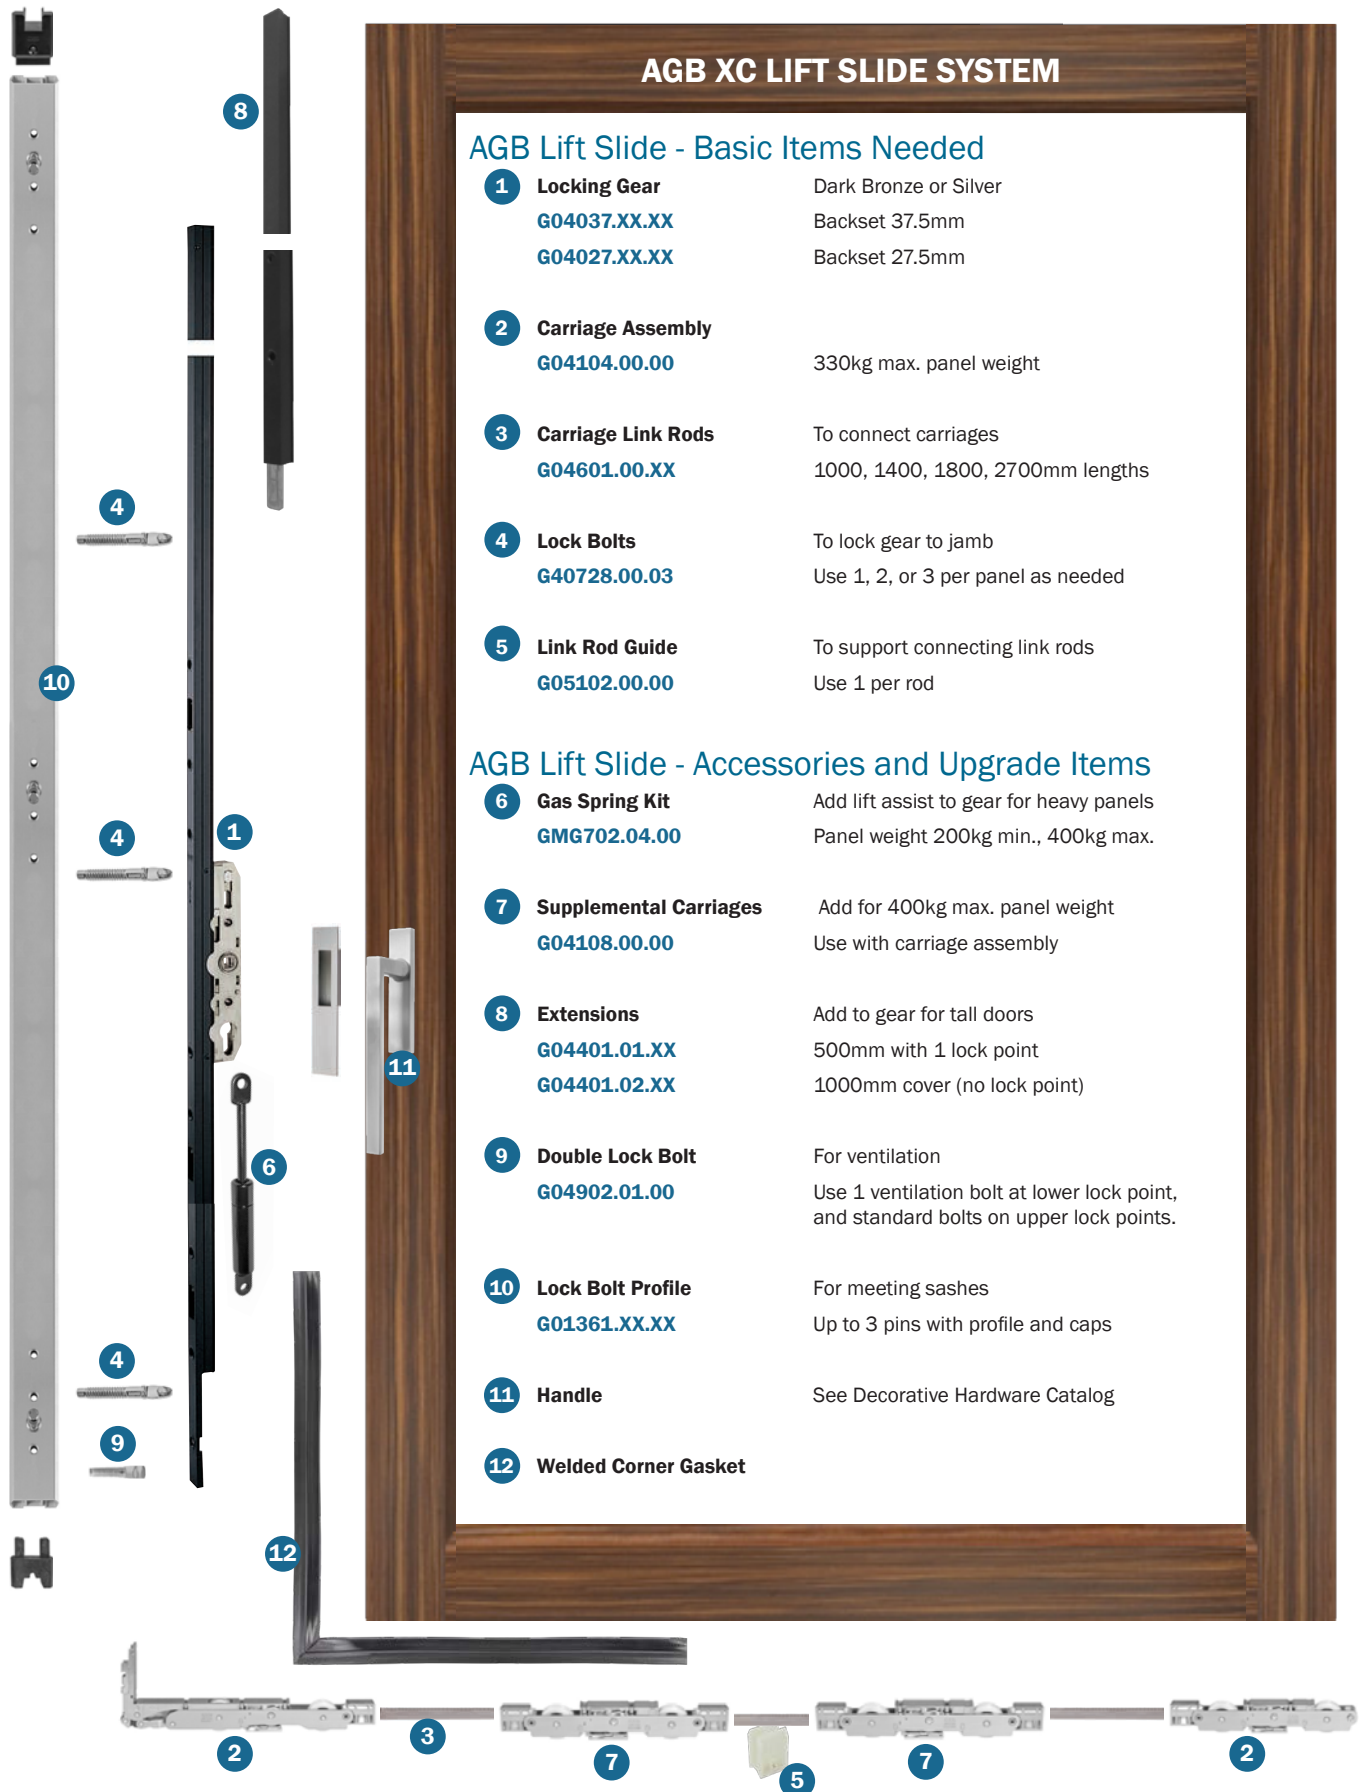

Clearlift Accessories for Aluminum Lift Slide Profiles

Clearlift is compatible with most any lift slide profile (Deceuninck, Veka, Kommerling, Rehau, etc); install kit available for Reynaers aluminum profiles with XO and XX layouts.

These items and more available to suit most any application; also see A-11 & A-12 and ask FFI for assistance

Item #	Description
4QLS0040	Distance block (sash block) for front carriage
4QLS0050	Distance blocks 20mm set for drive gear with Reynaers profile
4QLS0030	Link rail guide bracket
4QLS0100	Screw pack with rail connecting pins
4QLS0110	Glass support packer

G04601.00.03	1800mm (71")	2540mm	3140mm	Silver Activeage
G04601.00.04	2700mm (106")	3440mm		Silver Activeage

AGB XC Carriage Link Rod Guide

Item #	Description	Material
G00728.00.12	Link Rod Guide. Use one per link rod	Plastic

AGB recommends 4.5 x 30mm screw (not included)

AGB XC WOOD LIFT SLIDE SYSTEM

- Standard backset 37.5mm; 27.5mm also available
- For lift slide panels, use these four components all of the same brand
Carriages, Lock bolts, Gears and Link Rods
- Gears include components with steel and zamak material, with Activeage finish salt-spray tested to 2000+ hours corrosion resistance
- Aluminum face profiles have Class II anodized finish
- Ask FFI for assistance for system for vinyl or metal panels
- Screws: AGB recommends 4.5x45mm.

AGB Lift Slide Gears (37.5mm backset)

27.5mm backset models available upon request

Item #	Sash Height	Handle Height (low/high track)	GR (size)	Finish
G04037.03.01	1770 - 2150mm (70" to 84.5")	1000/1010mm	3	Silver anodized
G04037.04.01	1920 - 2400mm (76 to 94.5")	1000/1010mm	4	Silver anodized
G04037.05.01	2401 - 2750mm (94.5" to 108")	1000/1010mm	5	Silver anodized
G04037.03.02	1770 - 2150mm (70" to 84.5")	1000/1010mm	3	Dark Bronze anodized
G04037.04.02	1920 - 2400mm (76 to 94.5")	1000/1010mm	4	Dark Bronze anodized
G04037.05.02	2401 - 2750mm (94.5" to 108")	1000/1010mm	5	Dark Bronze anodized

AGB Lift Slide Gear Extensions

Item #	Description	Finish
G04401.01.01	Extension with lock point 500mm (19.5")	Silver anodized
G04401.01.02	Extension with lock point 500mm (19.5")	Dark Bronze anodized
G04401.02.01	Cover extension (no lock point) 1000mm (39")	Silver anodized
G04401.02.02	Cover extension (no lock point) 1000mm (39")	Dark Bronze anodized

Gas Spring Kit

Adds lift assist to gear on heavy panels, recommended to use with handles having spring-assist mechanism/positive stop action

Item #	Description
GMG702.04.00	Gas spring kit. For use with 200-400kg sashes

AGB XC WOOD LIFT SLIDE SYSTEM

Lock pin for wood

Double locking pin for ventilation

- For lift slide panels, use these four components all of the same brand
Carriages, Lock bolts, Gears and Link Rods
- 3 choices of lockbolt systems; basic, ventilation or coaxial with aluminum profile
- Activeage finish is salt-spray tested to 2000+ hours corrosion resistance
- Ask FFI for assistance for system for vinyl or metal panels

Lock Bolts

Item #	Description	Material	Finish
G40728.00.03	Lock pin for wood	Steel	Silver Activeage

Lock Bolts for Ventilation

Use with G40728.00.03 lock bolts on upper lock points,
and ventilation bolt at bottom lock point.

Item #	Description	Material	Finish
G04902.01.00	Double locking pin	Steel	Silver Activeage

Coaxial lock bolts with aluminum profile and caps

Use on inactive meeting sashes, up to 3 locking pins included

Item #	GR (size)	Length	Finish
G01361.03.01	3	2090mm	Silver Anodized
G01361.04.01	4	2340mm	Silver Anodized
G01361.03.02	3	2090mm	Dark Bronze Anodized
G01361.04.02	4	2340mm	Dark Bronze Anodized
G01361.05.02	5	2690mm	Dark Bronze Anodized

Extension for coaxial lock bolt profile

One additional locking pin included

Item #	Length	Finish
G01361.97.01	500mm	Silver Anodized
G01361.97.02	500mm	Dark Bronze Anodized
G01757.00.01	1000mm	Silver Anodized
G01757.00.02	1000mm	Dark Bronze Anodized

Lock bolt holder profile

Used on jamb if wood locking profile is not used, lock bolts for wood not included

Item #	GR (size)	Length	Sash Height	Finish
G01341.01.01	1	2900mm (114")	1700-2900mm (69.7" to 114")	Silver Anodized
G01341.02.01	2	2900mm (114")	2401-2900mm (94.5" to 114")	Silver Anodized
G01341.01.02	1	2900mm (114")	1700-2900mm (69.7" to 114")	Dark Bronze Anodized
G01341.02.02	2	2900mm (114")	2401-2900mm (94.5" to 114")	Dark Bronze Anodized

FFI HIGH PROFILE BOTTOM TRACK

The most popular bottom track, the high-bottom track provides more weather protection than the standard low profile track.

- High profile track provides more weather protection than low profile track
- Track has 5mm diameter, adapts to almost any arrangement
- Track is pre-drilled for screws at 12" intervals
- FFI aluminum track is Made-in-USA and Class I anodized for 3,000 hour salt-spray corrosion resistance per ASTM B117-07
- Ask FFI for technical details

Aluminum High Bottom Track

SST/Brass System

Aluminum System

FFI FASTRACK SYSTEMS

FASTrack (Functional Adjustable System Track) for multiple sliding doors

Advantages

- Fast and easy installation of multiple sliding door floor tracks.
- Adapts to variable field conditions using modular parts.
- Adjustable track spacing, adjustable height.
- A complete modular multi-track system, available in 8, 12 and 20 foot lengths.

Characteristics

- Compatible with any door manufacturer panels; any weight capacity.
- Two-sided track blades: 5mm diameter for lift slide, 6mm diameter for patio door rollers.
- FASTrack is a low-profile track; use with FFI Anti-Derailer lock for performance and hurricane testing.
- Curved track installation is simple: the track bends by hand.
- Surface drainage: FASTrack can be assembled on slope up to 2 degrees for surface drainage; sub-floor drainage system is not supplied.
- One-year FFI warranty against manufacturing defects, on all components.
- Stainless steel & brass: 15-year warranty against corrosion failure.
- Choice of corrosion resistant SST/brass or Class I anodized aluminum systems; do not mix system parts.

FASTrack Drainage shown with optional Interlock Drainage Kit

FFI FASTRACK DRAINAGE SYSTEM

FASTrack (Functional Adjustable System Track) for multiple sliding doors, with drainage to divert water from door openings.

Advantages

- Fast and easy installation of multiple sliding door floor tracks
- Adjustable track spacing and adjustable height for laser level installations

Characteristics

- Compatible with any door manufacturer panels up to any weight capacity
- Can be configured for pocket door and corner applications
- 5mm diameter for lift slide door rollers
- FASTrack is a low-profile track; use with FFI Anti-Derailer lock for performance and hurricane testing
- Multiple bottom and side ports for ½" ID tubing for fast drainage
- Reticulated foam filter keeps debris out of drainage lines
- Optional Interlock Drainage Kit available
- Corrosion resistant Class I anodized aluminum system

FFI INTERLOCK DRAINAGE KIT

Interlock Drainage Kit for single or multi-panel lift slide doors.
A flexible solution to water diversion from your door opening.

Features

- Fast and easy installation of multiple sliding door floor tracks
- Provides both interior and exterior drainage
- Durable and corrosion resistant Class I anodized aluminum extrusion
- Multiple output ports for ½" ID tubing for fast drainage
- Reticulated foam filter keeps debris out of drainage lines
- For use with FFI FASTrack systems
- Compatible with many in-floor track systems and interlocks
- Bottom and side ports for ½" ID tubing for fast drainage

CLIMATECH THRESHOLD SYSTEM

Climatech threshold is made of durable composite material, fiberglass-reinforced to ensure optimal strength, thermal resistance, excellent insulation and scratch resistance.

Features

- 3 threshold widths to accommodate 68mm, 78mm and 92mm panel thicknesses.
- 6 meter standard lengths.
- Track has 5mm diameter
- Supports both sliding panel and fixed sashes.
- Threshold available in Anthracite Grey RAL 7016 (stock) or Grey RAL 7035 (special order).
- Features central point pad between central profile and threshold for increased heat/cold insulation.
- Use appropriate safety equipment when cutting fiberglass-reinforced material.
- Add welded gaskets to seal sash to threshold.
- Cap & Accessory kit required (sold separately).

Climatech Threshold kits - Cap & Accessory kit required

FFI UNIVERSAL TOP TRACK

FFI aluminum tracks are Made-in-America with Class I anodized finish and a 1-year warranty against corrosion failure.

Features

- Use for any layout, number of panels, or door thickness.
- 12mm top air gap between panel and header.
- Track is pre-drilled for screws at 12" intervals
- FFI universal low profile track is the easiest to install for pocket applications.
- If combining with high bottom track, see installation instructions for details.
- FFI aluminum track is Made-in-USA and Class I anodized for 3,000 hour salt-spray corrosion resistance per ASTM B117-07

C-STYLE TOP TRACK

European style aluminum track, Class II anodized finish.

Features

- Use for: Any type of door arrangement, with any number of sliding panels or thicknesses.
- 12mm top air gap between panel and header (same as UL track).
- Clean look; minimal track protrusion.
- G01739 can also be used for 2-part bottom track.
- Easy panel installation, especially with high bottom track.
- Useful for curved lift slide applications.
- When C-style is used with pocket applications, specialized milling is needed. See installation guide.
- C-style track is European made, with Class II anodizing.

Low profile top track (C-style)

G01739.04.01	6 meter (19'8")	Aluminum	Silver (clear) anodized
G01739.04.02	6 meter (19'8")	Aluminum	Dark Bronze (Black) anodized

Seals for C-style top track

G00733.07.01	Top seal for C-style track - Order 1 meter for each meter of track
G00756.00.93	Top insulation strip for C-style track Use with metal panel interlock

G00733.07.01

G00756.00.93

Required Items

- C-Style top track
- Top seal G00733.07.01
- Accessory kit G00758.02.68

Accessory kit for C-style top track - Order 1 accessory kit for each sliding (x) panel

G00758.02.68	Accessory kit for C-style track contains <ul style="list-style-type: none"> • Top front shaped cap • Top front guide (adjustable) • Top rear guide with rubber bumper (adjustable)
---------------------	---

Top front cap

Top rear guide

AGB AUTO BRAKE SYSTEM

The Auto Brake system slows down and stops the sash before it reaches the frame, ensuring comfort and safety.

Features

- Use with U-shaped top track with 22x22mm channel
- Gliders & Caps Kit for embedded upper guide
- Front and rear kits
- For opening and closing on the same sash
- Compatible with any brand of lift slide gear

Auto Brake Damper Kit

G00232.11.93	Closing Brake	80-200kg	Black Finish
G00232.12.93		201-440kg	
G00232.13.93	Opening Brake	80-200kg	Black Finish
G00232.14.93		201-440kg	

Gliders and Caps kits for embedded upper guide 22mm x 22mm

G00232.21.93	Front Glider	Black Finish
G00232.20.93	Rear Glider	Black Finish

* Using the opening and closing brake on the same sash, the minimum Sash Rebate Width is 1100mm (43.3")

Profiles

G02403.15.01	Top locking profile	1500mm	Silver Finish
G02403.20.01	For Wood systems	2000mm	Silver Finish
G02403.30.01		3000mm	Silver Finish
G02406.15.01	50mm upper locking profile	1500mm	Silver Finish
G02406.20.01	For Wood/Aluminum systems	2000mm	Silver Finish
G02406.30.01		3000mm	Silver Finish

Embedded Upper Track Guide		Finish
G01002.01.01	Track 3000mm	Silver
G01002.02.01	Track 4000mm	Silver
G01002.03.01	Track 5000mm	Silver
G01002.04.01	Track 6000mm	Silver
G01002.01.02	Track 3000mm	Black
G01002.02.02	Track 4000mm	Black
G01002.03.02	Track 5000mm	Black
G01002.04.02	Track 6000mm	Black

GASKETS, WEATHERSEAL AND ACCESSORIES

LSGK.TUP.150

LSGK.BTP.150

G00728.00.30

G00728.12.15

G00728.00.24

G00728.00.22

FFI Top Universal gasketing - compatible with universal top tracks (UL or US).

Flexible seal, for oil or water-based paints

LSGK.TUP.150	Top seal for universal top track	45 meter (150')	PVC	Black
LSGK.TUP.500	Top seal for universal top track	152 meter (500')	PVC	Black

LSGK.TUP seal is for Universal top track – If you are using C-style top track, see C-style top seal on page A-27 (G00733.07.01).

FFI bottom/side gasketing - Flexible seal, for oil or water-based paints (150 or 500ft per box)

LSGK.BTP.150	Bottom/side seal for lift slide	45 meter (150')	PVC	Black
LSGK.BTP.500	Bottom/side seal for lift slide	152 meter (500')	PVC	Black

Top insulating strips - optional seal for Universal top track

G00728.00.30	Seal for 56mm panels	For US track	Foam	Grey
G00728.00.15	Seal for 68mm panels	For US track	Foam	Grey
G00728.12.15	Seal for top panel	For UL track	Brush	Black

Bottom insulation strip - installs between bottom track and multiple panels

G00728.00.24	Seal for high bottom track	Rubber	Black
---------------------	----------------------------	--------	-------

Bottom insulation strip - for standard threshold bottom track

G00728.00.22	Seal for 56mm (2¼") panels	Rubber	Black
G00728.00.21	Seal for 68mm (2¾") panels	Rubber	Black

Panel accessories

G00204.00.93	Door bumper	Plastic/Rubber	Black
G00728.00.23	Corner frame link kit		

G00204.00.93 Door bumper

- Prevents fixed handles or double handles from bumping into one another.
- Prevents fixed handles or double handles from bumping into packet jamb.
- Used when moving panels are not as wide as the fixed panels.
- Used when multiple panels on parallel tracks overlap each other.

G00728.00.23

Corner frame link kit. Connects head (top rail) and side (stile) jambs. Allows easier transport of large frames for job site assembly.

GASKET WITH WELDED CORNER

Thermal-resistant gasket with welded corner to ensure proper weathersealing.

Features

- For lift slide door applications.
- Recommended as a bottom and side panel seal for lift slide doors.
- Each gasket kit includes left and right handed gasket.
- No need for notched gaskets (no corner cutting by hand)

Welded corner gasket

G02000.13.93	3 meter x 3 meter (9'10" x 9'10")	Rubber	Black
G02000.15.93	4 meter x 4 meter (13'1½" x 13'1½")	Rubber	Black

Clear anodized (silver) shown

UNI-V: A BETTER INTERLOCK FOR SLIDING DOORS

An engineered, high performance solution for sliding panels.

- Easy panel alignment with wide milling tolerances
- For sliding panels with 1½" (28mm) panel gap
- Full panel height provides additional strength between panels for hurricane testing
- Saves assembly time with simple installation, comes predrilled for 3.5 x 30mm (#6 x 1¼") screws (not included)
- Eliminates contact points between the sash and frame for silent operation
- Kit includes EPDM bulb gasket, brush seal and two aluminum profiles, one for each panel
- Includes screw cover to conceal screws for a clean look
- Aluminum finished with Class II anodizing
- Ask FFI for technical details
- 28mm nominal gap with +2/-3mm lateral and +/-3mm "in-out" adjustment

UNI-V STANDARD CENTRAL POINT INTERLOCK

Uni-V central point kit - Use one per pair of panels

G02208.31.01	3100mm (122")	Aluminum	Silver (clear) anodized
G02208.40.01	4000mm (157½")	Aluminum	Silver (clear) anodized
G02208.31.93	3100mm (122")	Aluminum	Black anodized
G02208.40.93	4000mm (157½")	Aluminum	Black anodized

Accessories

G01610.SX.93	Left hand cap kit

UNI-V MINI CENTRAL POINT INTERLOCK

Uni-V Mini central point kit - Use one per pair of panels

G02211.31.01	3100mm (122")	Aluminum	Silver (clear) anodized
G02211.40.01	4000mm (157½")	Aluminum	Silver (clear) anodized
G02211.31.93	3100mm (122")	Aluminum	Black anodized
G02211.40.93	4000mm (157½")	Aluminum	Black anodized

Accessories

G01623.DX.93	Right hand cap kit
G01623.SX.93	Left hand cap kit

Uni-V Standard 42mm

Uni-V Mini 26mm

ACCESSORIES FOR WOOD INTERLOCK

Essentials for basic wood interlocking panels.

- Basic interlock components using brush (for decompression chamber) (available in pipe) and gasket material in 150 and 500 foot rolls
- For wood or aluminum clad wood panels with 28mm panel gap and 6mm air gap
- Ask FFI for technical details

Brush for decompression chamber

Use one per panel pair

G02002.31.00 3100mm (10' 2") Black

Gasket

LSGK.BTP.150 150' roll Black

LSGK.BTP.500 500' roll Black

Basic Type Interlock

Easy Type Interlock

FFI PANEL INTERLOCKS

Durable brass or aluminum (Class I anodized) for long life corrosion resistance. 1-year warranty.

- Easy panel alignment - Handles minor misalignments
- For wood or aluminum clad wood panels with $\frac{1}{2}$ " - $\frac{9}{16}$ " (12 to 15mm) air gap
- Provides additional strength between panels for hurricane testing
- Saves assembly time with simple installation
- See data sheet or installation instructions for more information
- 2024 product stock being converted from pre-drilled to undrilled extrusions

Panel Interlock	Order two pieces to connect two panels			
SL300.12.01	12'	Pre-drilled*	Aluminum	Silver (clear) anodized
SL300.12.02	12'	undrilled	Aluminum	Dark Bronze (Black) anodized
SL300.12.03	12'	undrilled	Brass	Unfinished (mill)

* While stock remains

Screws	One screw recommended every three inches		
LVP 25S	#6, 3.5 x 25mm (1") flathead screw	Steel	Silver
LVP 25B	#6, 3.5 x 25mm (1") flathead screw	Steel	Black
LVP25SSST	#6, 3.5 x 25mm (1") flathead screw	SST	Silver
LVP25BSST	#6, 3.5 x 25mm (1") flathead screw	SST	Black

Interlock gasket	Universal for oil or water-based paint	
SLGK.02.024	24' length PVC gasket (connects 1 set of 2 panels)	Black
SLGK.02.750	750' roll PVC gasket (connects 31 sets of 62 panels)	Black

LAR300019
Stainless Steel / Nylon Wheels

Adjust the roller using a standard
M6 Allen Wrench

FFI TWIN ROLLER

430 stainless steel two-wheel rollers

- Lift Slide Applications: Use to place a screen on the outward track
- Other Applications: Multi-slide doors
- Compatible with any FFI lift slide track, including FASTrack
- Delrin wheels carry up to 660 lb doors maximum per door (using 2 rollers)
- Durable ball-bearings
- Height adjustment of up to 6mm (+/- 3mm) at each end of the door panel
- Easy installation
- Screws recommended: #8 Philips flat head, stainless steel, length and thread to suit material (not included)

FFI Twin Roller - Order 2 per door; use with 5mm diameter lift slide track

Part #	Casing	Wheel	Weight Capacity*
LAR3000019	430 Stainless Steel	Delrin	660 lbs

* Maximum door weight using two rollers

FFI 1-WHEEL ROLLER

304 stainless steel single-wheel rollers

LAR2500014
Stainless Steel / Nylon Wheels

- Lift Slide Applications: Use to place a screen on the outward track
- Other Applications: Multi-slide doors
- Compatible with any FFI lift slide track, including FASTrack
- Nylon wheels carry up to 220 lb maximum per door (using 2 rollers)
- Easy installation

FFI 1-Wheel Roller - Order 2 per door; use with 5mm Diameter lift slide track

Part #	Casing	Wheel	Weight Capacity*
LAR2500014	304 Stainless Steel	Nylon	220 lbs

* Maximum door weight using two rollers
