windows

For wooden windows

activPilot Topstar

For timber windows with high aesthetic demands.

Technical features

- Can be used for 13 mm groove centre position and 24 mm frame rebate depth
- Suitable for sash weights of up to 130 kg without requiring additional parts for load transfer
- For offset wooden profiles that are flush on the inside
- Suitable for narrow frames with small free sizes of the frame

Advantages of the fitting system

- + Easy to combine with the modular activPilot system
- + Compatible with top rails from the activPilot Select product segment
- + Simple three-dimensional adjustment
- + Convenient installation – simply lower the sash on the hinge brackets in a slightly tilted position
- + Energy efficiency – sealing plane is not interrupted
- + Opening angle > 95°
